

# Impact assessment & measurement that enables investors, asset managers & individuals to know your impact

Vested provides automated detailed data to make your impact reporting as robust as your financial reporting - & provide you with the insights to score, monitor & plan the impact of your portfolio down to the company level - in a nearly entirely automated & independent manner leveraging over 100 million impact data points.

## Automated data-driven impact assessment & insights across your entire investment process - at the click of a button

### Leading Impact Methodology

Vested is SDG aligned; & **1 of only 4 organisations globally, & the only private sector**, selected to present to World leaders at the 2022 Paris Peace Forum in the category; *"Measuring the non-financial impact of companies"*

Get access to

## 40,000+ companies & debt assets

& assess them based on globally accepted principles of impact measurement, and submit new private companies to be assessed in seconds:

Alignment with your reporting under:

Using data from trusted sources:

### Manage Risk & Additionality

Vested provides detailed negative impacts & visibility of additionality/potential indirect impacts. Allowing you to manage systemic & impact risks, reputational risks, & regulatory risks.

### Reduce Cost Factors

Vested's large coverage & automated processing reduces reporting burden, allows access to knowledge & comparable data, & reduces regulatory compliance complexities:

### Evidence & Communicate Impact

Deep, detailed assessment linked to independent reputable data, but also simplified metrics for communications & sharing to clients and the public
